

SALVATION ARMY LEADER KILLED IN A WRECK

MRS. BOOTH-TUCKER IS ONE OF THE DEAD.

Score of People Injured in Wreck of a Fast Santa Fe Train in Kansas.

KANSAS CITY, Mo., October 29.—The east bound train No. 2 from California on the Santa Fe Railway, which left Kansas City at 6 o'clock last night was wrecked at 8:10 o'clock at Dean Lake, Mo., eighty-five miles east of Kansas City.

Mrs. Emma Booth-Tucker, consul in America of the Salvation Army, wife of Commander Booth-Tucker and second daughter of William Booth, founder of the army, was killed. Colonel Thomas Holland, in charge of the Salvation Army colony at Amity, Colo., was fatally injured. Others dangerously hurt are Mrs. Baden of Winfield, Kansas, and Elmer Harris of Chicago. Thirteen others are less seriously injured. All the injured were taken to Marceline.

TELLS OF WRECK.

TOPEKA, Kas., October 29.—James Hurley, general superintendent of the Eastern Division of the Santa Fe said this morning, in connection with the wreck at Dean Lake: "At 9:10 o'clock last night our train No. 2 with Engineer Cunningham in the cab and Conductor Andrews in charge, met with a serious wreck near Marceline. The brake to the sleeper dropped down and caught in the switch, quickly derailing this car, another sleeper, the dining car and a Pullman.

Colonel Thomas C. Holland, in charge of the Salvation Army at Amity, Colorado, was fatally injured. Thirteen others were injured. The dead and injured were taken to Fort Madison, Iowa.

Mrs. Booth-Tucker was rendered unconscious and died within half an hour after being injured. Her skull was fractured and she was injured internally.

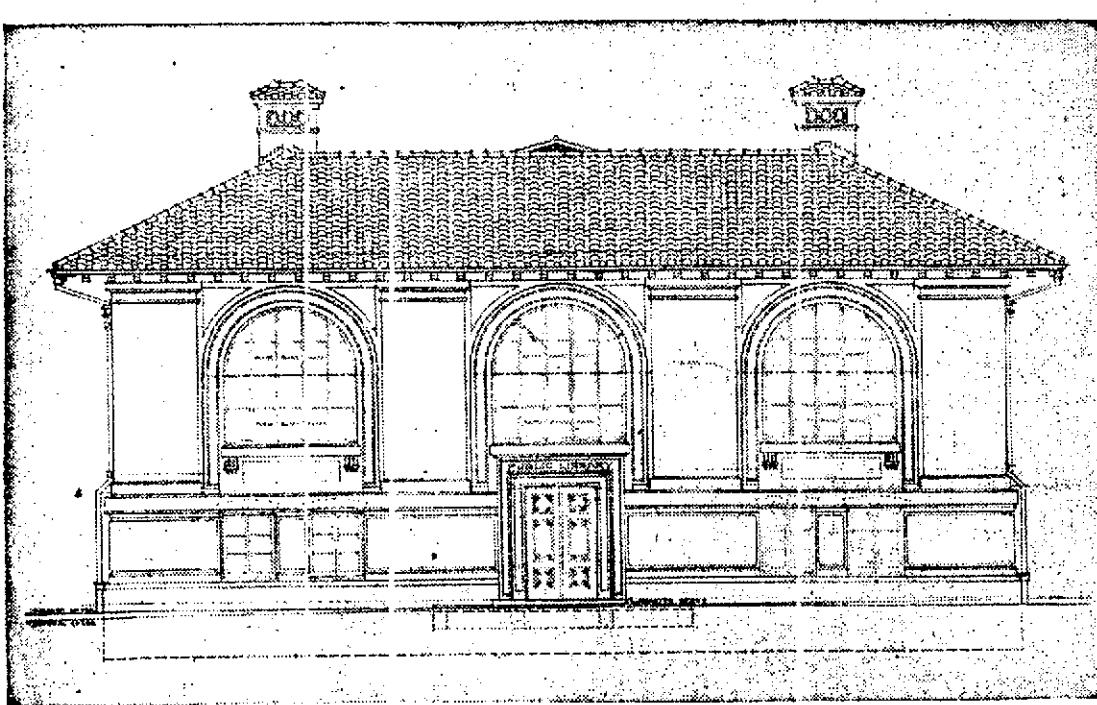

The first details of the wreck were obtained this morning by the Associated Press over the long-distance telephone from Marceline through Dr. T. E. Putnam, who had been at the scene.

WRECKED TRAIN.

The wrecked train left Kansas City last evening. It ran into an open switch just outside of Dean Lake. Only the three last cars, two Pullmans and a diner, were wrecked. The Pullmans were completely demolished while the dinner was badly damaged. In the forward Pullman, Mrs. Booth-Tucker and Colonel Holland were the sole occupants. Two of the Pullmans struck a small water-tank with such force as to move it five feet from its foundation and when the train crew reached the scene both Mrs. Booth-Tucker and Colonel Holland were found unconscious. They, with the other injured,

NEW LIBRARY BUILDING FOR BERKELEY.

BERKELEY, October 29.—Another substantial building, to be added to the college town structures, is a library, the erection of which is made possible through the gift of \$50,000 from Andrew Carnegie. The plans for the library, which were drawn by John Galen Howard, supervising architect of the University of California, have been accepted by the Board of Library Trustees, who are now receiving the bids for the contracts.

Spanish style of architecture will prevail. There will be two stories and a basement. Especial attention will be paid to a juvenile room, which has been suggested by Superintendent of Schools Waterman. The corner stone will be laid upon the completion of the foundation. Instead of having some society take charge of the ceremony, the exercises will be conducted by the founders of the first public library.

ARE ACCUSED OF NEW ROAD INTO CONSPIRACY.

EX-OFFICERS AND A CHINESE ARE INDICTED BY JURY.

SANTA FE RAILROAD HAS COMMENCED WORK ON EXTENSION.

SAN FRANCISCO, October 29.—W. F. Dasha, Thomas J. Dempsey and Lee Lin were formally placed under arrest today on charges of conspiracy returned against them by the United States Grand Jury. They were each given liberty on bail of \$3000.

The two white men arrested were deputy United States marshals and they are accused with the connivance of the Chinese prisoner of substituting old and decrepit Chinese who desired to return to China, for young Chinese who were ordered deported by the United States courts.

BAKERSFIELD, Oct. 29.—Work has commenced by the Santa Fe Railroad on the extension of its line into the West Side oil fields.

The surveyors were all completed some weeks ago and a force of men have just commenced the work of construction which will be completed in a short time. The distance to be covered is a two and a half miles and this will bring the rail road into the very heart of the Sunset district, placing it on a nearer plane of equality with Kern river by enabling most of the principal producers to ship direct from their property to rail. The transportation problem has been the largest factor in keeping the West Side in a backward condition.

Some time ago the Monarch and Mariposa properties were acquired by Adolph Spreckels and the Crocker Woolworth Bank. These parties took in the question of extension with the Santa Fe Company and by their negotiations stirred the officials to action within a very short time. Now that better transportation facilities are in sight, business is picking up very rapidly in the Sunset field.

SWEETHEART OF BROTHER KILLED HER.

ALLENTHON, Pa., October 29.—No bail has been offered as yet for Thomas Bechtel and Alfred Eckstein, brother and sweetheart of Mabel Bechtel, who was murdered last Monday. The young men were committed to prison in default of bail. Neither is charged with the murder of the girl, but both are detained as witnesses. Mayor Lewis said today:

"One of these two men is the murderer of Mabel Bechtel. Of that I am morally certain. As far as the police are concerned the case is ready for presentation to the Coroner and the court."

The Coroner's inquest will be held tonight.

The funeral of the dead girl took place this afternoon.

OFFER OF CUP IS WITHDRAWN.

LONDON, October 29.—Mr. Thomas Lipton has definitely withdrawn his offer to present a cup for a trans-Atlantic yacht race in 1904, and has made way for Emperor William, who will present a cup through the New York Yacht Club or the Atlantic Yacht Club.

LADRON LEADER TO DIE.

MANILA, October 29.—Fau-tino Giller-mo, leader of the band of bandits which for months past has been raiding the province of Rizal, has been sentenced to death. Two of his officers have been sentenced to imprisonment for life and two others to imprisonment for twenty-five years.

Insane Waiter Then Jumped From a Second Story Window.

SAN FRANCISCO, October 29.—Secretary Hitchcock today received a telegram from Portland, Oregon, announcing the indictment of three more persons in connection with the public land frauds in that State.

The telegram gave the names of the persons indicted as Emma L. Watson, Guy Huff and Norman Williams. The woman is charged with conspiracy in connection with the proceedings with Miss Ware, commissioner of the United States District Court for Oregon, who already is under indictment, and Williams is charged with forgery in connection with the Nosbit case. The proceedings against Huff are for forgery but his is an independent case.

Upon being asked if he had anything to say in favor of the indictments, Secretary Hitchcock replied:

"Nothing except that the ball goes rolling on. There have been seven indictments within a week and there will be many more. Our success to the present time indicates pretty clearly, I think, that our investigations have been quite thoroughly conducted."

"So far most of the prosecutions have been directed against those engaged in fraudulent proceedings under the timber and stone act and it now appears that many flagrant irregularities have been discovered in that connection. Innumerable instances of the invasion of public land regulations by people in large companies have been reported to the department from day to day for the past year and more. In many instances people have gone to the Pacific Coast States from the States farther east, and entered lands under the timber and stone law. The arrival of carloads at a time have been reported and many of the members of these parties were women. In one or two cases during the vacation period of last summer entire carloads of female school teachers, halting from the Middle Western States, made tours to the coast and all entered lands. In other instances entire families of four or five persons each have come in from the outside and have made entry of lands."

"So far as known no evidence of fraud has been discovered in these specified cases, but the officials of the department contend that in view of the fact that over \$400 is required to complete the acquisition of titles under the timber and stone law, some of these entries are at least suspicious."

"In other cases entries have been made in the names of purely fictitious persons. Connivance of officials is necessary in proceedings of this character and this line of entries themselves most easily to discovery and proof."

The Coroner's inquest will be held tonight.

The funeral of the dead girl took place this afternoon.

SKULL FRACTURED.

A Coroner's jury today found that Freddie Hutton, the ten-year-old boy who died Tuesday at the Fred Finch Orphanage came to his death as the result of fracture of the skull by accidentally falling from a tree. Both the boy's parents are dead.

STOLE BOX OF CIGARS.

The police were this morning advised that some thief last night entered the cigar store of Tom White, in the old building at the southeast corner of Second street and Broadway and stole a box of cigars.

CANNERS WALK OUT.

CHICAGO, October 29.—Packing-house canners walked out today joining the striking sausage-makers and increasing the number of idle men at the stockyards to 2,400. There are sixteen other branches of organized labor in the packing-houses yet to make demands and more than 3000 are said to stand ready to support the strikers.

THREE ITALIANS WERE RIDING ON PILOT OF ENGINE KILLED.

DOCUMENTS CONCERNING THE NEW ROAD PLACED ON RECORD.

OGDEN, Utah, October 29.—There was a head-on collision between the Overland Limited on the Southern Pacific and a work train at Dequon, 10 miles west of Ogden, at 11 o'clock this morning. Three Italians, names unknown, who were riding on the pilot of the work engine, were killed.

Several cars of the work train were derailed and traffic is delayed for six hours. The bodies of the dead are being brought to Ogden.

EMPLOYERS WILL UNITE.

WILL FORM ASSOCIATION TO COPE WITH LABOR PROBLEM.

CHICAGO, October 29.—A conference for the purpose of forming a national federation of employers associations to cope with the labor problem among other things, began at Kimball Hall today. The conference will last two days, by which time it is expected that a constitution and by-laws will be adopted, work of organization planned, a scheme of revenue decided upon and permanent officers named.

Among those already here are D. M. Parry, of Indianapolis, president of the National Manufacturers Association; E. F. Debril, of Cincinnati, of the National Metal Trades; Marshall Cushing, of New York, secretary of the National Manufacturers Association; C. N. Chadwick, and James C. Hoyle, representing the employers of New York.

YERBA BUENA HAS A MISHAP.

On the 10 o'clock trip this morning the running gear attached to the rudder of the Yerba Buena broke. The ferry boat was laid up for repairs. After a delay of an hour the steamer San Jose was put on the run.

NEWS FROM ALAMEDA

FRANCHISES ARE AMENDED.

CITY ATTORNEY SIMPSON MAKES CHANGES IN FREIGHT CLAUSES.

ALAMEDA, Oct. 28.—City Attorney Simpson has amended the restrictive freight clauses in both the Central Pacific and South Pacific Coast franchises in such a manner that they will not conflict with the Interstate Commerce law, and announced this morning that he would meet the commissioners with the Southern Pacific officials this afternoon and lay the franchises before them in their amended condition. There is little doubt, according to Mr. Simpson, that the terms will prove satisfactory to the company. The amendment will put the question of rates at the tax-payers of this city will be discussed.

Of prime importance is the proposed improvement of the Webster street railroad, the main and shortest, throughfare leading from Alameda to the business section of Oakland. City Engineer Poyer's plans will be taken up and ways and means of raising the necessary \$45,000 to carry them out will be considered. Several times in the past have various schemes for raising funds been proposed but nothing ever came of it. Now the citizens of this city and especially those residing in the West End, are going to make a determined effort to have the proposed plan acted upon.

Attention will also be paid to the matter of the vegetable farm nuisance. Several legal points will be raised in connection with the scheme to put a road through the midst of the gardens and their enclosure the land to either side closed for private use.

It is proposed that a number of capitalists have favorably considered a position to erect a large modern hotel and bathing resort on the West Alameda beach. The matter will be taken under advisement this evening. The association has extended a cordial invitation to all citizens whether residents of the West End or not, to attend.

REUTER RELEASED.

ALAMEDA, October 29.—John Feuer, of Alameda, charged with stealing a dog from Sixte Pilot, a French wagon maker, was released today from custody. Justice of the Peace Taylor stating that no case had been made out against him.

CORDES TO DISBAND.

ALAMEDA, October 29.—While the Cordes Hose Company, No. 5, will disband Saturday at 12 m., all its members will not withdraw from active association with the Fire Department. Five men have been appointed by Chief Krauth as call men, to be paid in proportion to the number of responses to fire alarms they make. They will form a new company to be known as Hose Company No. 5. S. J. Cordes is to be foreman. The other members are Percy R. Fox, L. F. Creason, J. W. Cresson and J. E. Hayden. The latter will drive and A. M. Carey will act as extra.

Cordes Company was organized February 22, 1891, as the High Street Hose Company, with J. E. Cordes foreman. About a year later the name was changed to the H. Cordes Hose Company, in memory of Herman Cordes, deceased. At that time George Stuttevant was assistant foreman.

The company will hold a "wake banquet" Saturday night, to be prior to the formal disbandment.

JOKEFELLOWS ENTERTAIN.

ALAMEDA, Oct. 29.—The Jokefellow's Club, an organization of young men affiliated with the Baptist Church, will give an entertainment tomorrow night in the church. A laughable farce and a number of musical selections will be presented.

ALAMEDANS WILL MARRY.

ALAMEDA, Oct. 28.—The following marriage license was taken out yesterday at the County Clerk's office:

Jacob J. Hansen, 30, Alameda; Minnie E. Martin, 24, Alameda.

SATURDAY KNOWLEDGE SPOKE.

ALAMEDA, Oct. 29.—Senator Joseph R. Knowland of this city was one of the speakers at the big banquet given by E. H. Hart, grand warden of the grand lodge of Masons of this State in San Francisco last night. About fifty prominent Masons were present.

LOW SENIOR HOP.

ALAMEDA, Oct. 29.—The class of Jimmie, '04, Alameda High School, will give a dance Saturday evening, November 1, in the assembly hall connected with the school building. The dance promises to prove a large affair and will be a grand event in local society.

ANDY PETERSON PASSES AWAY.

Andy Peterson, the captain of the Baggott baseball team, passed away yesterday morning at his home at 925 Santa Clara avenue, Alameda, after a very short illness. One can hardly think of Andy as having passed away to the great beyond, as it seems but yesterday that he was still here, and as yesterday.

Andy was an untimely end. In Andy Peterson the Baggott's lose a first-class baseball player, who has piled them on many a noble victory, and the community loses a friend who was always ready to help any who knew him. He always had a cheerful word for everybody, and his ever pleasant face will certainly be missed. The funeral will take place at his home on Friday, at 2 o'clock.

POW FOUND GUILTY.

Young Pow was on trial yesterday before Judge Geary, sitting in Judge Smith's court, upon the second of six charges against him for selling lottery tickets. The greater part of the day was taken up in securing a jury, after which the trial itself was soon concluded and Pow found guilty. The 20th inst. was named as sentence day. On the first charge Pow was fined \$100, and given the alternative of 150 days in jail. The case was carried to the Supreme Court on appeal.

NEW GUN CLUE.

A number of Oakland gun devotees have associated themselves together under the name of Bacon Island Gun Club and will open the season's festivities with an excursion Saturday to Bacon Island in San Joaquin County. Among the number enrolled are Harry Newton, Dr. H. P. Travers, J. W. Matthews, Charles Bates, Dr. W. H. Mullsey and Percy Du Bois.

WEST ENDERS TO MEET.

MATTERS OF MUCH INTEREST ARE TO BE CONSIDERED TONIGHT.

ALAMEDA, Oct. 28.—George T. Gannon was today bound over to the Superior Court by Justice of the Peace Cone, and bail was fixed, in the sum of \$2000. The formal charge was burglary.

The offense with which Gannon charged is the stealing of an overcoat and a new suit of clothes from F. Knight of Santa Clara avenue about eight months ago. Subsequent to his stealing Gannon got an Oakland woman and was tried and convicted. He was let off with a sentence of six months, however, by Judge Ellsworth. Immediately upon his release from San Quentin, Police Chief John Conrad placed him under arrest for the same job.

Gannon ought to have the charge changed from burglary to petty larceny, but in this he was unsuccessful. He was represented this morning by Attorney Donovan of Oakland. As this is Gannon's second offense within the present year, the charges look rosy for a long term being given him.

MUSICAL BURGLAR MUST FACE SERIOUS CHARGE IN ALAMEDA.

ALAMEDA, Oct. 28.—The West End Improvement Association will hold an interesting meeting this evening, as matters of vital importance to the tax-payers of this city will be discussed.

Of prime importance is the proposed improvement of the Webster street railroad, the main and shortest, throughfare leading from Alameda to the business section of Oakland. City Engineer Poyer's plans will be taken up and ways and means of raising the necessary \$45,000 to carry them out will be considered. Several times in the past have various schemes for raising funds been proposed but nothing ever came of it. Now the citizens of this city and especially those residing in the West End, are going to make a determined effort to have the proposed plan acted upon.

Attention will also be paid to the matter of the vegetable farm nuisance.

Several legal points will be raised in connection with the scheme to put a road through the midst of the gardens and their enclosure the land to either side closed for private use.

APPROPRIATION FOR PORTLAND FAIR

PORLTAND, OR., Oct. 29.—The legislative committee of the Lewis and Clark exposition has decided to ask Congress to appropriate \$100,000 to \$200,000 to help defray the expenses of the exposition, which is to be held in this city in 1905. The committee does not hope for action in the matter of the appropriation before next year, but it was the sense of the committee that its early introduction before Congress would give the matter more or less precedence.

WHISTLER NOT APPRECIATED.

ONDON, Oct. 29.—An acrimonious correspondence is proceeding in the columns of the Morning Post as to whether the art of the late James McNeil Whistler, the American painter, is appreciated in his own country. Marion H. Stettemann, editor of The Magazine of Art, contends that Whistler received no official recognition in America, and adds:

LIFE ENDED FOR F. C. DE MEDICIS

Francis C. De Medicis, widely known among the printing fraternity throughout the South, the Middle West and in California, died at his home in Fruticello Tuesday night. He had endeared himself to a large circle of friends by his genial disposition. Though a sufferer from heart consumption, he was to all appearances ever happy and light-hearted. For many months he had been fighting the disease, and had gradually recovered from it, which never came to him again. He was born in Jacksonville, Florida, and there learned the printer's trade. At the time of his death he was employed as a linotype operator on one of the San Francisco dailies. A widow and two sisters survive him. De Medicis was a member of the Printers' Mutual Aid Society. The funeral arrangements have not yet been made.

BILBAO STRIKE IS VERY GRAVE.

BILBAO, Spain, Oct. 29.—The garrison of Bilbao has been reinforced but the troops still have difficulty in coping with the clothing strikers, who constantly erect new barricades as the old ones are torn down by the soldiers. The city presents a sorry spectacle owing to the widespread destruction wrought by the mob. The rioters used dynamite in several instances to blow in the doors of the houses and then destroy the ruined tracks with the object of preventing trains from entering Bilbao. High prices are already being charged for provisions. Even bread is \$1.15 a loaf. Six persons were killed and a hundred injured during yesterday's conflicts. Hundreds of workers have been laid off. The railroad employees now threaten to join the strikers. Acting under orders from Madrid, the governor of Bilbao has summoned the mine owners to a conference.

VENGEANCE OF THEIR ENEMIES.

NEW YORK, Oct. 29.—Armenians of this city are beginning to talk more freely about the murder of Sagatel Sagouni, which occurred in London Monday morning. These men, who refuse to permit the use of their names, fearing the vengeance of their enemies, insist that Sagouni was the real head of the pro-revolutionary party and that he was murdered by an assassin in the pay of a certain European government.

Members of the Armenian colony here say warning was sent to Sagouni a month ago when a wholesale assassination plot was first discovered.

MANILA FRIARS REDUCE PRICE.

MANILA, October 29.—Monsignor Guili, the Roman prelate sent to Manila as Apostolic Delegate to conduct negotiations between the United States Government regarding the sale of land held in the Philippines by the friars, is urging a settlement of the master before Governor Taft leaves for America. The Governor upon his part says he is in hopes that the sale will be concluded before his departure from the fact that the friars have reduced their price considerably.

BIRTH RECORD.

Further have been reported at the Health Office today in the following families: Ralph H. Cross, 652 East Twenty-eighth street, a daughter; John A. McKeon, 317 Seventeenth street, a son; Ralph Nordyke, 930 Forty-second street, a daughter; Chas. W. Bolles, 689 Sycamore street, a daughter; Herbert F. Haley, 516 Telegraph avenue, a daughter.

FEUGSON FOR PHILIPPINE BOARD.

MANILA, October 29.—Seventeen provincial boards have endorsed Executive Secy. Arthur W. Ferguson for the vacancy upon the Board of Philippine Commissioners, which will be created by the approaching retirement of Governor W. H. Taft, who will shortly leave the islands and return to the United States.

Perhaps the strongest evidence that can be given to doubters, is the fact that Osgood Brothers have so much faith in Hyomei that they sell every package under a positive guarantee to refund the money if it does not cure.

Now is the time to begin the use of Hyomei.

PRETTY WEDDING.

St. Mary's Church, at Elmhurst and Jefferson streets was the scene of a pretty wedding last evening when Miss Katherine Marie Best became the bride of John G. Wohlfstrom. The bride is a well-known Berkeley girl, but Mr. Wohlfstrom is better known in Yolo County where his business in estates are situated although for some years past he has been living in Oak and. His father is Jos. Wohlfstrom a retired capitalist of this city and his uncle John Wohlfstrom is better known in Yolo County.

Dr. F. X. Morrison performed the ceremony. The altar was brilliantly lighted and decorated with drooping palms.

The bride wore a beautiful gown of white satin over white silk. It was elaborated with shirred white chiffon and clusters of grapes were applied about the hem of the long trailing skirt. She wore a long tulle veil caught to her hair with a cluster of orange blossoms and she carried a show bouquet of bride roses.

The bride's attendant, Miss Grace Cashin, of San Francisco, wore a charming pink gown and carried pink carnations. Joseph Wohlfstrom, a brother of the groom was best man.

The wedding was attended by a hundred and fifty guests present at the ceremony and a large reception to the bride's and groom's relatives followed at the Wohlfstrom home on Twelfth street, which was prettily decorated with autumn leaves.

Mr. Wohlfstrom is superintendent of his uncle's interests in Yolo County.

The couple will go at once to their country home at Woodland.

PERSONAL AND SOCIAL.

The discovery of Hyomei has brought a wonderful change in the treatment of catarrh.

Prior to three years ago the medical practitioners ordinarily employed in the cure of this disease were nauseating drugs and worthless tonics. In some instances they benefitted, but the improvement was not lasting.

With Hyomei you take into the air passages of the throat and head a balsamic air that goes to the mildest parts effectively killing all germs and microbes of catarrh. It enters the blood with the oxygen, killing the germs in the blood, and restores health to the whole system. Many astonishing testimonials have been received from those who have been cured by Hyomei.

Why Thousands of Miners are Throw Out of Work.

BUTTE, Mont., Oct. 29.—C. F. Kelly, counsel for the Amalgamated Copper Company, today gave out a statement, which says:

"The shut-down is the inevitable result of the actions of certain courts, which have an unbroken record for six and one-half years of deciding adversely every question concerning our interests in Montana. A decision was rendered on Thursday, October 22, whereby a previously issued restraining order prohibiting

the transfer of the stock of the Boston & Montana Company to the Amalgamated, and prohibiting the payment of dividends on Boston and Montana stock was made an injunction. This decision declared our operation of the Boston and Montana illegal. Inasmuch as our ownership of the Anaconda and other properties is on precisely the same footing as our ownership of the Boston and Montana and subject to the same interpretation of the law, it became impossible for us longer to operate except in violation of what the district court has declared to be the law. Therefore, there was nothing for us to do but cease operations until such time as the whole question can be adjudicated by the court of ultimate resort."

FORMING TRUST IN COLLIERIES

SAN FRANCISCO, Oct. 29.—The Western Fuel Company, which is a combination of nearly all the large coal companies doing business in this city, has organized the Western Steamship Company with the object of owning and controlling vessels to carry coal from the collieries at Puget Sound to the markets in California. The company now owns the Wyefield, a big collier that has for several years been carrying coal cargoes on this coast, and it has the control under charter of the steamer *Titania*. The company is said to be seeking other vessels suitable for the coal trade of this coast.

DECLARERES THE CHECK WAS BOGUS

John R. Talbot Will Answer a Serious Charge.

SAN FRANCISCO, Oct. 29.—A man giving the name of John R. Talbot and claiming to be in business in New York, was arrested today charged with obtaining money on false pretenses.

It is charged that yesterday he induced Samuel Ralston, of Colusa, to advance him \$40 on a check for \$870, drawn in his favor on Morton Dexter and Co., of Seattle.

Ralston took the check to a local bank and found the check worthless.

ADVISES WIFE TO KEEP ON GOING.

A divorce was granted today to May E. Gischel, the wife of a butcher in Ashland, Oregon, on the grounds of desertion. She was also given the custody of their only child. In order to prove her allegation of desertion, Attorney C. P. Deasy produced a letter purporting to have been written by Gischel, in which he answers a communication from his wife, who tells him that she is coming to him with their child.

In response to this letter, he tells her that Ashland is a "jail town," and advises her when she reaches it to keep on going. Mrs. Gischel did not make the proposed trip, and immediately began the proceedings which ended today, her feeling granted a decree of divorce in his favor. Judge Ogden granted Minnie M. Fletcher a decree of divorce today from William A. Fletcher on the grounds of irreconcilable differences and awarded her the custody of their son, George A. Fletcher, and such support as the court may hereafter determine.

JAPAN TO MEET SHUT OUT FOR MULTNOMAH GAME
AFRICA. SENATORS. SATURDAY.

WEST OAKLAND CLUB HAS AN ATTRACTIVE PROGRAM FOR TUESDAY.

The West Oakland Athletic Club has arranged an attractive program of amateur boxing contests for its monthly show, which takes place in the gymnasium in West Oakland on next Tuesday evening. The events will be six in number and will be limited to four rounds each. The contestants are all well known amateur performers about the town and will give a good account of themselves.

The program reads: Kid De Ponte vs. Loren Brown, Young Ganley vs. Jimmy Oliver, Kid Jordan vs. William Arley, Masa Bryan vs. Frank Makasma, Jack Dolan vs. Kid Parker, Kid Martin vs. Dave Coakley, and the Doctor vs. Jimmie. The contests will be the main event, and a special feature is to be made of the international match between Bryan and Makasma. The former is an ebony-brown son of Africa, while the latter is from the land of the kimono.

It is predicted that the Japanese fighter is clever enough to hold his own with the best of them in his class on this deck of the bay. He learned all he knows of the game from Dan Conoley, the boxing teacher and official referee of the club. Conoley says the boy is a great little boxer and will be one of the surprises of the evening.

The first bout is scheduled to go on at 8:30 sharp and the program will be run off in quiet succession. The club anticipates a large crowd and are making preparations to handle it. Due to the fact that there are no judges appointed yet,

WILL DISCUSS SUNDAY SCHOOLS.

The Alameda County Sunday School Association convention, which meets in the First Presbyterian Church, Oakland, on November 19, promises to be a large and interesting affair. The 140 Sunday schools of the county are represented by their delegates, besides the pastor and superintendent, and with the large number of interested workers in Oakland and nearby cities, a large attendance is expected.

The program committee has secured the services of a number of eminent experts in Sunday school matters to address the convention. Among these are Rev. F. H. Bell of San Francisco, State president of the California Sunday School Association; Rev. G. W. Hodson, a member of the State Sunday School Association executive committee, and Rev. C. W. Jopson of Los Gatos, State superintendent of home department work. It is expected that Rev. Dr. St. John, chairman, formerly president of the Southern California Sunday School Association, will be present to make an address during the time of the conference.

The Alameda county committee of the largest and best conducted schools in the West, will contribute practical workers for the program. The committee on program, composed of H. H. Cribben (chairman), Ruth St. John, Mrs. Hodson, and Earl S. Burman, the officers of the County Sunday School Association are: President, Earl S. Bingham; secretary, Mrs. Will G. Hubbard; treasurer, H. G. Gibson; ordinary superintendent, Mrs. P. H. Pittman; vice superintendent, Mrs. L. M. Munro, and Normal superintendent, Rev. Dr. Slaughter.

LEAGUE STANDING.

Clubs—	W.	L.	Pct.
Los Angeles	114	70	.619
Sacramento	84	92	.559
Seattle	90	80	.561
San Francisco	86	90	.492
Portland	85	91	.484
Oakland	89	114	.413

The game across the bay yesterday was too one-sided to be interesting, although the result was something of a surprise for Oakland won by the score of 9 to 0. It was not a forfeited game, but the record was managed to pile up a forfeited score.

Errol McKay was on the firing line for Los Angeles and did an excellent job. Seven hits were at bat, he would allow and he could not be worked for a pass to first. The same cannot be said of Fitzgerald, who served up the benders for the Senators. He was not overgenerous in his line, but he allowed men, more than once, in the first inning.

Outside of the first period Sacramento played fair baseball, but their miserable work during the Recruits' first time at bat lost the game beyond redemption. Fitzgerald was generosity itself in the upper portion of the field back of his contributed sturdy efforts. This, with three little hits, manufactured six runs for Oakland.

Rockenbach was the only man on the Oakland team to make an error and his display was so small and insignificant that it did no damage at all. Murdoch, Murphy, and McKay wielded a heavy hand. Score:

Batters—McKay and Lohman; Fitzgerald and Gruber.

SEATTLE WON.

Seattle made a new record for the City League yesterday by making twenty-three hits and incidentally demonstrating that Hodson's outfit makes Harry an easy target the easiest thing for Seattle batters in the league. In the last series between the two teams, Hodson pitched two games and in each the Swashers made twenty-one hits. They were not satisfied with this and they asked for a third game.

Hodson had everything necessary to make a successful pitcher. He had speed, control and good wide curves but somehow they availed him nothing, for Seattle batters straightened them out and incidentally scored seven runs in the barge to the home station. Simple did not escape scot free but got a good-sized dubbing himself. The Stars saw him for fourteen safe hits. For the first six innings, it looked as if the Stars might win and the disaster happened in the seventh and eighth innings when the Swashers scored eight and five runs respectively. Score:

Batters—Sample and Byers; Hodson and Zearfoss.

THEY WERE MARRIED AT ST. HELENA.

The news of the marriage of Mrs. S. Gertrude Smyth and Dr. Albert M. Estelle at St. Helena last Sunday has just been received by friends of the couple in this city. The ceremony was performed by the Rev. C. L. Taylor, and there were no attendants. Mrs. Estelle is a prominent member of the Elbel Society and of other clubs.

Dr. and Mrs. Estelle will live in this city where he practices his profession.

The named couple are of the larger and best conducted schools in the West, and will contribute practical workers for the program. The committee on program, composed of H. H. Cribben (chairman), Ruth St. John, Mrs. Hodson, and Earl S. Burman, the officers of the County Sunday School Association are: President, Earl S. Bingham; secretary, Mrs. Will G. STONES SUES FOR MONEY ON CONTRACT

SAN JOSE, October 29.—The E. B. & A. L. Stone Company of Oakland today filed a suit against the trustees of the Stanford University, Mrs. Jane L. Stanford, R. P. Hurlbut and Silas Palmer to recover \$13,444.44 alleged to be due for material furnished in the construction of the natural science building at the university. Some time ago, its pendens was filed to prevent the money due on the building being paid to the contractors. The Stone Company asks judgment against R. P. Hibbert for \$15,476.33; Silas Palmer for \$9,21.31 and against Jane L. Stanford for \$2075.50. It is stated that there is still \$17,000 in the hands of Mrs. Stanford due to the contractors, and the company asks that the funds be used to pay the bills. It is further stated that the building and ground on which it stands be sold and the proceeds applied to the payment. Hurlbut had the carpenter work contract on the building for \$32,000, and after doing some of the work transferred it to Silas Palmer.

SIBERIAN MINERS RETURN.

SEATTLE, Wash., Oct. 29.—Twenty-two American prospectors have returned from Northeastern Siberia on the steamship "Asia" and Gold. All are healthy and all agreed that the country is rich in minerals, and they state that good colors were found in practically every creek prospected. E. S. Brown, one of the number, believes rich placer districts, rivaling those of Nome and the Yukon, will be found in the country.

WILL SOON MAKE TRANSFER.

SOUTHERN PACIFIC WILL MAKE PAYMENTS ON OIL STOCK.

BAKERSFIELD, Oct. 29.—On November 1, according to contract, the Southern Pacific will pay over to the Reed Crude and San Joaquin oil companies, for the holdings of associated stock, \$1,560,000, of which amount \$840,000 goes to the Reed Crude, and \$720,000 to the San Joaquin Oil Company. Of the last amount \$35,000 has already been paid over.

The stockholders of the Reed Crude have agreed to give up their interest in their stock in order that the reduction of capitalization from \$2,000,000 to \$100,000, made necessary by the disposal of the company's associated interest, may be carried out.

Efforts are now being made to purchase the assets of the Kern Oil Company, the other companies holding the Bear Flag have already disposed of its interests, and it is reported that parties have options on the stock held by several other corporations. The Kern Oil Company has decided to make a public offering of its stock pro rata among the individual stockholders, many of whom are expected to dispose of them at once.

The deal was made some months ago just before the Kern City and Tradin Company was organized by E. H. Harris to carry on the Southern Pacific oil business.

JUNK DEALERS TO TEST ORDINANCE.

A recent ruling from the City Attorney's office that junk and second-hand goods dealers are subject to the payment of license under the terms of a city ordinance regulating peddlers generally is causing considerable fluttering among the dealers in junk. This morning a letter of protest against the proposed license fee was received at the City Treasurer's office from a dealer in new and second-hand shoes, in which he says he can produce all places where the city up-to-date and reliable places to have his trade got on this side of Chicago. I repeat from 200 to 300 pairs of shoes a day so the most of my second-hand shoes are my own. Besides I buy my second-hand shoes on a big scale, which all shoe manufacturers sell to me at cost. I think I have to pay the cost above and leave all the other speculators out, it would not be right, so please consider it over.

A test case will probably be made to test the validity of the proposed law applied to second-hand dealers who have a fixed place of business, as this contention it was intended to apply solely to vagabond dealers.

THE BIRTH OF CAIN.

All day long Eve waited for the garden. Not for her the comfort Adam knew. As he watched the what-e'er slow-brown hands got on this side of Chicago.

As the peacock roof above him grew. "For the sake of all my likes, pardon! God," she prayed, "give back my violet-blue."

Adam, sowing, watching, later reaping. Wrestling with the earth and life and fate. Now no dreams the weariness in sleeping.

Kings are grief. But early still and late Eve in dreams behold the angel keeping. Watchful over the ever-hidden gate.

Till Adam came a wondrous calling. Slewing hope like flame began to burn.

"Tis God's messenger," he thought, "re-calling."

Eden gate stands wide and w' return? Then he drew whole voice, all song fore-stalling.

Held all joy and sadness turn in turn.

"My beloved sings," he said; "no other she would teach my heart and hide her pain."

MARRIED COMMANDER.

Mrs. Booth-Tucker, who was Mrs. Murray, one of the passengers injured in the Santa Fe wreck, is advertising representative of the California Fruit Grower, a horticultural publication, and also agent for the California Promotion Committee. He has traveled extensively through the West, and has been instrumental in inducing many immigrants to come to California.

CHANGE COST HER LIFE.

KANSAS CITY, Oct. 29.—Had Mrs. Booth-Tucker followed out her original intention she would have missed the wreck. She arrived in Kansas City on the California train which was wrecked yesterday evening, and intended remaining here until this morning. She found she could make a brief trip up town between trains, however, and later decided to continue east on the same train. All the lower berths in the standard sleepers were taken and it was suggested that she and Colonel Holland take berths in the tourist sleeper. She at first objected, saying she had never traveled second-class except in India. But after an inspection of the car she accepted a lower berth on the tourist sleeper. The other members of Mrs. Booth-Tucker's party went into the chair car.

GOOD AND BAD CHILDREN.

Colonel Thomas Holland was born in Liverpool in 1867. He was sent from England to Canada as chief secretary of the Salvation Army in 1886 and held that position two years. He was then made national secretary for the United States and in that position had charge of all the social and colonizing work. These duties fitted him for the governorship of the Colorado colony. Its great success has been due largely to the business ability of Colonel Holland, who was a convincing speaker, a skillful organizer, and was looked upon as one of the strongest men in the army. He has a wife and three children at Amity.

RARE WOMAN.

"She has that rare quality of perfect sympathy. She is a well-educated woman in the sense that she can think and write clear, good English. She has no class prejudices and no just as much at home in the parlors of a house on Fifth avenue as in the one and only room of a squallid family. But it is in the meeting that her real power shows itself. As an orator she ranks with less than half a dozen Americans of both sexes."

"The Kind That Won't Wear Out."

The Pony Stockings make the mother's heart glad because they won't wear out. No matter how hard the service given them by the youngsters, the everlasting yarn in them stands the strain. Fast black and in all sizes.

Twenty-five Cents

Fine Broadcloth Moderate Priced

Fifty-two inches wide is this Victoria broadcloth and every inch stands for fine material and fine weaving. All the newest autumnal shades are represented. You cannot buy it elsewhere for less than \$1.50 per yard. The Taft & Pennoyer price is \$1.00 per yard.

To Satisfy the Handkerchief Craze

To satisfy the newest fad we have just secured an effective assortment of colored bordered, hemstitched, Japonette handkerchiefs. The colors and designs—twenty in all—are suited for use in making stockings, kimonos and shirt waist. The price is 12½¢ each.

A Worth-While Chance to Buy Tableware

Broken sets at broken prices—that's today's story. The China department is closing out the odd pieces and dozens of several English porcelain dinner sets at half the regular price. You have choice of plain white, blue and white and colored decorations. As examples we quote:

Saucer dishes and bread and butter plates, \$0.05 each.
Cups and saucers and dinner plates, \$1.00 each.
Pickle and olive dishes, \$1.50 each.

Three-pint and two quart pitchers, \$2.00 and \$3.00 each.

One Dollar Viyella Flannels Reduced to Seventy-five Cents

"Viyella" is the gold standard of the flannel world. "Viyella" flannels are woven of the finest Scotch wool and are absolutely unshrinkable. Their universal unvarying prices are \$1.00 and \$1.50 per yard.

We will this week close out about twenty patterns—stripes, polka dots, plaids and Persian effects—which have heavily been cut into this fall, as follows:

Fifteen patterns—\$1.00 "Viyella" flannels reduced to 75¢.

Five patterns—\$1.50 "Viyella" flannels, reduced to 75¢.

A Good Robe at a Low Price

When you see the material, the trimmings and the workmanship, that have been put into this eiderdown robe, you will wonder how we can sell it at the price. It has a fitted back, lace front and is belted with cord and tassel. The collar is pointed and trimmed with stitched satin bands. Silk frogs are used as fasteners. It may be had in red, gray, pink and blue. Price \$4.50.

Make Ready for Cold Weather

You may now prepare for cold nights and that economically, too. Witness:

Ten dozen fine hand-combed cotton comforters with heavy sat-teen covers—value \$2.50—price \$2.00 each.

One hundred pairs of soft fine finished white California wool blankets. Full size—value \$5.00—special price \$4.00 each.

NECK BROKEN IN GAME.

YOUNG FOOTBALL PLAYER LIES AT THE POINT OF DEATH.

NEW YORK, October 29.—Thomas McCauley, 16 years of age, lies at the point of death in a Brooklyn hospital from injuries received in a football game. His neck is broken and his lower limbs were paralyzed, but the lad retains full possession of his faculties. McCauley, who is the son of a police sergeant, was playing on a training school eleven. He got the ball and started to run, when he was downed, with the entire team on top of him. He clung manfully to the ball and was carried off the field.

MRS. KELSEY INJURED.

KANSAS CITY, Mo., Oct. 29.—Mrs. Kelsey, a theatrical woman of New York City, was injured most seriously by a man falling with his feet square on her chest.

In his effort to extricate himself, the man bruised her fearfully with the heels of his boots.

THE SAD NEWS.

NEW YORK, Oct. 29.—The following telegram was received at the Salvation Army headquarters today from Mrs. Booth-Tucker's secretary, Ensign Hester Damness, who was also on the train but not injured:

"Consul passed from earth to heaven, bringing body on same train."

MURRAY KNOWN HERE.

SAN FRANCISCO, Oct. 29.—W. H. Murray, one of the passengers injured in the Santa Fe wreck, is advertising representative of the California Fruit Grower, a horticultural publication, and also agent for the California Promotion Committee.

He has traveled extensively through the West, and has been instrumental in inducing many immigrants to come to California.

OPEN PARLIAMENT CLUB.

A new club has been organized in the Young Men's Christian Association for the purpose of discussing social problems of men, as well as doctrinal subjects, which many are interested in.

The two lines of study will be interlaced from Sunday to Sunday, so that it will meet the needs of the various classes of people who attend.

These meetings are arranged for men only.

HALLOWEEN PARTY.

On Saturday evening the opening social event of the season will be held in the gymnasium of the Young Men's Christian Association. Games and contests will be indulged in.

In the evening orchestra will provide music, light refreshments will be served, and a general good time is expected.

It is free to members of the association and their friends, either lady or gentleman.

CHAMBERLAIN'S UNTENABLE POSITION.

A careful reading of the full text of Joseph Chamberlain's Glasgow speech proves that the Birmingham statesman has many things to learn about the tariff question. To prove that it would make Great Britain rich to tax imported food stuffs, he contrasts conditions in the British Isles with those existing in the United States, yet his picture is a most incomplete one. But even were it a correct representation it would not prove Mr. Chamberlain's thesis.

Mr. Chamberlain expatiates on the benefits of protection, yet he advocates a policy that is not protection. He points out the evils of free importation of foreign products, but proposes as a remedy free trade in sports. He is in fact proving a case of murder to justify a verdict of arson. Here is a sample of his argument:

"Now, what is the history of protection. In the first place, a tariff is imposed where there are no industries or practically none, but only a tariff. Then gradually industries grow up behind the wall, the tariff wall. In the first place they are primary industries, the industries for which the country has natural aptitude, or for which it has some special advantage, mineral or other resources. Then, when those are supplied the secondary industries spring up, first the necessities, then the luxury, until at last the ground is covered. Now, these countries of which I have been speaking to you are in different stages of the protective process. In America the process has been completed. She produces everything, she excludes everybody. For a pittance six shillings per head Canada has been protective for a long time. The protective policy has produced it natural result. The principal industries are there, and you can never get rid of them. They will be there forever, but up to the present time the secondary industries have not been created, and there is an immense deal of trade that is still open to you that you may still retain, that you may increase. In Australasia the industrial position of that country is still less advanced. The agricultural products of the country have been first of all developed. Accordingly Australia takes more than Canada. In the Cape, in South Africa, there are, practically speaking, no industries at all."

Does he expect that a duty on American foodstuffs will induce the Canadians to close up their factories and buy their goods from Great Britain? Will it induce them to buy British goods instead of goods from the United States? Assuredly not. But by making the cost of living higher for the British workman the cost of production in British factories will be enhanced. How is this to extend the market for British goods?"

A complete answer to all that Mr. Chamberlain advances is contained in the following extract from an interview with Hon. Wayne McVeagh, published by the Philadelphia Press, immediately after his return from Europe:

"The best thought of England seems to be opposed to Mr. Chamberlain and his policy," said Mr. McVeagh. "It is regarded as foolish to pretend that the same policy which makes the United States prosperous is calculated to make Great Britain also prosperous. A leading Englishman summed it up to me in this way: 'Mr. Chamberlain's argument seems to me absolutely childish, so far as drawing a lesson from the United States in favor of protection for Great Britain. You have absolute free trade over one of the richest and most extensive portions of the earth, with almost every variety of climate, production and mineral resources, so that you can produce in yourselves everything you need. On the other hand, we are a small country with almost a stationary population, principally engaged in buying raw materials in the cheapest market and manufacturing them here and exporting our surplus of manufactures to the rest of the world. Food is for us as much a raw material as any other, and we need to get it at the lowest possible price just as much as our other raw materials.'"

The idea that Great Britain can restore the trade movement between the United States and Canada, Australia and other countries by taxing flour, grain, meat and prepared foods exported from this country into the United Kingdom is so palpably ridiculous as to excite a smile. What protection has done in the United States has nothing to do with the case. It is like citing the beauties of English literature to justify the use of the Greek alphabet. Mr. Chamberlain is a half-baked protectionist, who has not got far enough along in political economy to distinguish between skim milk and good Jersey cream."

Bourke Cockran is always doing contradictory things. After delivering an eloquent address in the cause of morality, taking the evils of divorce as his text, he turns around and makes another speech advocating the election of the Tammany ticket.

JUDGE M. M. ESTEE.

Judge Morris M. Estee was one of the most uniformly unsuccessful men ever figured in the politics of California, yet by a paradox he was one of the most lovable and popular men the State has produced. He followed his convictions with resolution and tenacity, yet gained the reputation of being inconsistent. True, he did things at times which seemed inconsistent; with other things he had done, at other times, but when the circumstances come to me studied it will be seen that the superficial evidences of Judge Estee's inconsistency only proved his unflinching consistency. He was twice beaten for governor by unusual combinations and peculiar conditions, notwithstanding the immense number of his personal friends and his sterling qualities as a public man. Twice he got the blame while his opponent played the game and got away with the stakes. His experience is one of the many instances of capricious fortune dealing most unjustly with a most deserving man. A manless loyal to his convicts and friendships would have succeeded where Judge Estee failed. The qualities which testified most to his worth militated against his success in politics. He was never a manipulator or an organizer, and thus became the puppet of situations that he did not create nor fully comprehend, and with which he knew not how to deal. Nevertheless, he died infinitely richer in the public esteem than many who succeeded where he failed.

John Alexander Dowle is apparently the kind of a wise child that does not want to know its own father; at least, he cut the acquaintance of the man who passed for his father and gave him his name.

Most consumers are equally interested with the stockmen in the effort to break up the predatory meat trust. A statement has been issued by the stockmen's organization showing how the great slaughtering combine has clinched both consumers and producers to add to the profits of its members.

During the past year the prices of dressed meats have advanced 25 per cent in all the principal cities, while the prices paid for butchering live stock at Chicago, Omaha, Kansas City and St. Joseph have decreased 15 per cent. In other words, producers get fifteen per cent less for their cattle and sheep, while the consumers pay twenty-five per cent more for their meat. A more remorseless robbery can hardly be imagined, for it affects the cost of living in every part of the United States by means clearly illegal and equally opposed to public policy. It is accomplished by all the great slaughtering and packing companies working in combination to put up the price of dressed meat and depress the price of live stock. This combination is sucking the very life-blood of the people.

The citizens living in the west end of Alameda are moving in the matter of improving Webster street. That important thoroughfare is sadly in need of repair, but it is too much to expect the owners of the abutting property to bear the entire expense. For the greater portion of its length south of the bridge, Webster street traverses an uninhabited marsh, the owners of which would derive little or no present benefit from improving the roadway. But the street is the main thoroughfare between Oakland and Alameda, and its improvement is important to the business men of Oakland as it is to the residents of Alameda. Our commercial bodies ought to interest themselves in the matter, therefore, and lend a helping hand to the project of paving the highway.

NEWS FROM BERKELEY AND THE STATE UNIVERSITY

WINS FROM OPPONENTS AND THEN RESIGNS.

Rev. R. L. Halsey of First Baptist Church Secures Government Position in Honolulu.

BERKELEY, October 29.—Following a hard but victorious fight against a faction in the First Baptist Church of this city, Rev. Richard L. Halsey, who has been its pastor for the past four years, tendered his resignation at the regular prayer meeting service held in the church parlors last night. He demanded that the resignation be accepted and he was given his release.

Rev. Halsey has been carrying on the duties of Japanese interpreter for the Immigration Bureau, at the port of San Francisco, in addition to his regular church work, but now gives up both these positions to become immigration inspector at Honolulu. He will leave in a few days with his family to accept the position which was tendered him by Secretary Cortelyou of the Bureau of Commerce and Labor.

Trouble was started for Rev. Halsey about a year ago when a faction led by Capt. E. E. Shattuck demanded the resignation of the minister, one of the grounds of complaint being that he was not attracting the young people of the State University to the church.

But Rev. Halsey pluckily fought the allegations made against him and refused to give up the pulpit. His friends rallied about him and when, one evening, he suddenly offered to resign, the proposal was rejected by a substantial majority.

Several members of the congregation opposed to Rev. Halsey withdrew and harmony was once more restored.

Now after nearly a year, the clergyman has decided to take up his work in other fields. Rev. Halsey has the distinction of being one of the three white men in the government immigration bureau service who speaks colloquial Japanese. His duties at Honolulu will be to inspect the immigrants coming into that portion of the country.

Rev. Halsey is a scholarly man and holds degrees from several Universities. His titles are Bachelor of Arts from Princeton; Doctor of Laws from Columbia; Doctor of Divinity from Chicago; and Master of Arts from the University of California.

Rev. Halsey leaves the First Baptist Church in a prosperous condition. Its finances are in good shape and

twenty-five new members have been received during the past year.

SOCIETY EVENTS IN BERKELEY.

BERKELEY, October 29.—Mr. and Mrs. J. D. Miller of Ashby and Shattuck avenues have returned from a year's travel in Australia and Europe.

MONEY FOR NEW BOOKS.

INCOMPLETE SETS WILL BE FILLED AT UNIVERSITY OF CALIFORNIA LIBRARY.

BERKELEY, October 29.—According to the reports received by the library committee of the University of California, there is \$15,832 available for the purchase of new books in the near future, besides \$1500 of private endowment fund and \$3000 of the Reese fund. Of the total \$20,833, one-tenth will be expended for book-binding while the remainder will go to the acquisition of new volumes.

The officers of the University have been invited to subscribe lists of books needed by the University.

The appropriation for current periodicals has been increased to \$2600 and \$1000 has been allotted this year for filling incomplete sets. A further sum of \$500 has been set apart for works of general interest.

CO-EDS TO SHOW FIGHT.

ONLY JUNIORS WILL BE ALLOWED TO WEAR SOMBREROS AT STATE UNIVERSITY.

BERKELEY, October 29.—The cords of the Junior class at the University of California have adopted the sombrero as their exclusive class hat and novelty lines are promised of the girls in the college are caught wearing that particular style of headgear.

With the announcement of the third year college women that they will not allow the girls outside of their class to infringe on their adopted style, has come a defiant edict from some of the Freshmen, Sophomores and Juniors.

TO IMPROVE MAIL SERVICE.

BERKELEY, October 29.—The usual crowding for mail at the local post-office each Sunday is to be done away with in the future through the inauguration of a new system of delivery.

Instead of giving the mail from but one window, requiring the applicants to stand in a long line, the letters will

be delivered by route from several windows at one time.

Each person will be expected to know the number of his route and call at the corresponding window. As several hundred people call for their mail each Sunday the new plan will be received with favor by the general public.

For only a quarter one can get some odd little novelties in small boxes used for trapping. Some are seized in dogs' mouths, while cunning cats guard others. One odd one shows the thermometer as the part of a base viol which is wise-looking and spectacled cat is playing.

IDORA PARK CONTINUES TO DRAW CROWDS.

HATTIE AND SADIE WHITNEY, WHO GIVE A VAUDEVILLE ACT AT IDORA PARK THIS WEEK.

The program at Idora Park Theater this week is an excellent one and the attendance has been very large. Manager Mackinnon has worked hard to make the theater a success and has certainly succeeded in giving a first-class vaudeville show for a nominal admission.

GENASCI IS FOUND GUILTY.

PLEASANTON JURY SAYS HE SOLD LIQUOR WITHOUT A LICENSE.

PLEASANTON, Oct. 29.—Trouble over the saloon conducted here by A. N. Genasci, came to a head here this week when for a second time he was arrested on a charge of selling liquor without a license. He pleaded not guilty to the charge and demanded a trial. This was granted and the following were chosen to try the case:

M. P. Ross, H. P. Chubbourne, W. Mendenhall, H. W. Wolcott, J. Crinkshank, E. M. Keller, J. Southwick, N. T. Nelson, William Koopman, William Kelley, and J. R. Harding.

Numerous witnesses were examined among them some boys who testified that Genasci had sold them liquor and the case was then submitted. The jury was out only a short time when it returned with a verdict of guilty. Genasci will come up for sentence next Monday.

A PRETTY WEDDING.

Wednesday morning at eleven o'clock Peter Garvey of San Francisco, was married to Miss Minnie Allen, of Oakland.

The Rev. Father McNaboe was assisted in performing the ceremony by Father Quill, of San Francisco, and Rev. Father Powers, of Livermore.

The bride was attended by her sister, Mrs. Hugh Burke, of Oakland; J. M. Garvey, of Stockton, acted as best man, after a wedding breakfast at the Parochial residence. Mr. and Mrs. Garvey left on the afternoon train for San Francisco where they will make their home.

DRUDS TO MEET.

The Druds Lodge of Pleasanton is making arrangements for a very large time on Monday evening, November 2, the event is to be public installation, to be followed by a banquet, to be served in the banquet hall of Nevis pavilion. A special train will come from Livermore, bringing one hundred and fifty lodge members and invited guests.

THE WOMAN'S AID.

The regular meeting of the Woman's Aid Society was held Tuesday afternoon in the Church parlor. The ladies were entertained by Mrs. Fred L. Adams. The parlors were prettily decorated with autumn flowers. The ladies spent a pleasant afternoon reading fancy work, and decided to give a tea and fancy work sale, in Odd Fellows' Hall in the near future. At five o'clock, Mrs. Adams served ice cream and cake. She was assisted by Mrs. Charles Bruce and Mrs. Frank Willis.

Mrs. S. Anderson, of Oakland, is visiting with friends in town this week.

Mr. and Mrs. C. F. Morse left Wednesday on a visit to San Francisco and Oakland.

Mrs. Coogins, of San Jose, was the guest of Mr. and Mrs. D. H. Lu Tidring from the infinite source of Nature's beauty, lying all about us, will bring great art that yet remains to be painted. True master hands have touched it but only at intervals.

We have painters in our midst who leave records worthy the name of art, yet little time and thought are given to their efforts.

The works of art that adorn the homes of many are for the most part, articles of fine, passing, wedged wooden shoes with a foreign name attached; while our home art surrounded as it is by inspiring situations is, from the lack of sympathy and appreciation, left to shrivel and die.

We have not as yet established a national school of great art of any importance. In all the length and breadth of our land, but from an infinite source of such good material as can be seen about us and for our painters to work from, we should soon be recognized as a city of skilled and fine art second to none irrespective of size and wealth.

CHECK SWINDLERS AT WORK.

NEW YORK, October 29.—Fully 100 business men in the upper section of Brooklyn and on the east side of Manhattan have been victimized by the probable extent of \$25,000 by a gang of clever check swindlers. One of them opened a small account with a Brooklyn bank. By some means they got hold of certification stamps. Checks then were cashed at every small shop which would accept them and the gang disappeared.

A SIMPLE QUESTION

OAKLAND PEOPLE ARE REQUESTED TO HONESTLY ANSWER THIS.

Is not the word of a representative citizen of Oakland more convincing than the double utterances of people living everywhere else in the Union? Read this:

J. J. Lawrence, miner, of 160 Seventh street, says: "Lameness and pain across the small of a miner's back totally prevents a man from performing work and even when the backache is not so pronounced as to prevent working it certainly is an aggravating annoyance. When in Ecuador, South America I first noticed that in some way my kidneys were not performing their functions properly and aching across the loins ensued. Since then other attacks have occurred and I was suffering from one when I noticed Doan's Kidney Pills advertised in our Oakland papers and went to a drug store for a box. If the first had not helped I never would have bought a second, and if the second had not brought greater relief I never would have continued the treatment. You can say for me that Doan's Kidney Pills can be depended upon to do exactly as stated."

ITALIANS WATCH ABYSSINIA.

NEW YORK, October 29.—Considerable apprehension is felt among Italians about the expedition under way to Abyssinia, by Consul-General Skinner of Marseilles, says a Tribune dispatch from Rome, Italy, since her African reverses, has been accustomed to look with distrust on any foreign interference in Ethiopia. It is learned on good authority, says the correspondent, that instructions have been sent to the Italian minister at the Abyssinian capital to watch Mr. Skinner closely and report on the attention paid him and the business results of his visit.

FINDS OLD INSCRIPTION.

BAKER CITY, Ore., October 29.—Dr. H. E. Curry of this city reports the discovery in the Mount Eastus mining district of a tree bearing the inscription "Lewis and Clark, 1804-1805" and of a well-constructed stone tower and the remains of a log house. The inscription on the tree was cut in the late fall or winter months, when the sap was down, because the letters now appear as raised. It is known that one of the earliest overland trails passed near the scene of the discovery reported by Dr. Curry.

MINERS RUN ON BANKS.

BARNSBORO, Pa., October 29.—The foreign mine workers have just made a run on the principal banking institution because of show bills which had been displayed prominently about town. The bills said nothing about bank troubles and the foreigners asked no questions but hurriedly withdrew their cash. They placed it with coal operators who sent it back to the bank in their own deposits, so that the run caused no inconvenience.

CHECK SWINDLERS AT WORK.

NEW YORK, October 29.—Fully 100 business men in the upper section of Brooklyn and on the east side of Manhattan have been victimized by the probable extent of \$25,000 by a gang of clever check swindlers. One of them opened a small account with a Brooklyn bank.

By some means they got hold of certification stamps. Checks then were cashed at every small shop which would accept them and the gang disappeared.

WILL USE WASTE OIL.

S. P. WILL ASCERTAIN VALUE OF GAS OIL AS ROAD SPRINKLER

The Southern Pacific Company is to make an experiment soon to determine the value of the waste oil and benzine products, left after the manufacture of Prism gas, as a road oiler. Heretofore the waste oil has been literally converted into "waste" and has been pumped into the bay as occasion demanded. Now the company contemplates the erection of a tank in which the oil may be reserved until needed.

Formerly Rudach of the gas department claims that the oil when put on the tracks will lengthen the life of the ties, making them impervious to the effects of water and at the same time will destroy all plant life and weeds growing between the ties. An experiment this year would suffice and enough of the oil could be stored away in winter to last during the summer months. The oil would be best appreciated by the public in general as a dust seal.

Before making any provision to store the oil, however, the company has had two dozen barrels prepared for shipment to the different branches. Unlike the common crude oil now in use on the streets, this is quite thin, of lighter density and wafts no unpleasant odor.

BOILER SHOP WILL SOON BE DRIVEN BY MOTORS.

The main lead wires are being placed in position for the transformers, and everything indicates that the boiler shop will soon derive its power from electric motors. Eventually it is hoped, the entire boiler, machine and car shop will use electricity. At present it keeps four stationary boilers busy to supply the necessary steam.

The change from steam as a motive power to electricity naturally affects a change in the machine tools themselves. Concerning this an Eastern publication says:

"In machine tools a notable feature is the changes in general appearance which the increasing use of the direct motor drive is developing. With lathes especially the first application of the direct motor concerned in the substitution of the motor for belt drive is noteworthy. Next the motor was mounted on a bracket of the machine and connected to the spindle or spindle gears by means of a chain belt. As yet the belt itself was not changed. In the later machines, however, the spindle pulley is removed and the motor itself mounted directly in the body of the machine.
